Maryville, Missouri

Wednesday, June 27, 1956

## Graduate Student Enrollment Shows 50 Per Cent Increase

The program for graduate work in various departments offered at the College began its second summer with fifty-three students enrolled in the various courses offered.

This enrollment is 50% above the previous summer of 1955 when the graduate program was first initiated. During the 1955 summer session 37 students, 11 men and 26 women, were enrolled in graduate courses.

Those areas in which graduate study is offered are Education, English, Health and Physical Education, Business, and Social Science. Courses in graduate work under the Social Science Department are Economics, Geography, History, Political Science, Social Science-general and Sociology.

The departments of Speech, Home Economics and General Studies offer courses applicable to these majors.

Students enrolled in graduate courses for the 1956 summer session are Lynn F. Adams, Maryville; Harold Dean Bailey, Clarinda, Ia.; Eldon Black, Shannon City, Ia.; Sally Ann Bolin, Coin, Ia.; Carter Botkin, Rock Port; Helen

Burris, Maryville; Audrey Brown, Maryville;

William Cain, Thurman, Ia.; Ross Cole, Lamoni, Ia.; Gene Conrad, Clarinda, Ia.; Theodore Damos, Waukegan, Ill.; Frank Davis, Essex, Ia.; Carl Deiter, Elmo; Opal E. Eckert, Maryville; Larry Felt, Audubon, Ia.; Everett Gray, Maryville; Maxine Gray, Maryville; Mary Helen Grimes, Holt; Gwendolyn Grove, Clarinda, Ia.; Dale Hague, Adel, Ia.

Lucy Hall, Princeton; Georgia Hedrick, Monterey, Calif.; Leo Foy Houser, St. Joseph; Florence Seat Houts, Grant City; Alice Howland, Maryville; Annette Jackson, Hopkins; Rosa Lea Johnson, Maryville; Charles Larson, St. Joseph; Patricia Lehman, St. Joseph; Ted McLain, Kansas City.

Jean McMahon, Rock Port; Erma Moore, Maryville; Kenneth Moore, Winterset, Ia.; Bill Mordue, Excelsior Springs; Wesley Morrison, Maryville; Hazel Nichols, Quitman; Winifred Paddleford, St. Joseph; Daniel Redman, St. Joseph; J. Donald Reece, St. Joseph; Darline Roeder, St. Joseph; James Rood, Kellerton, Ia.; Paul Ross, Braddyville, Ia.

(Continued on Page Three)

## Their Business Is to Entertain

Elizabeth Winslow and Walter Carringer, who will appear in this morning's assembly program, are comparative newcomers to the music world. Yet they have earned for themselves the reputation of being two of America's most promising young singers. Their program will have appeal to all interests in that it includes duets from Carmen, folksongs, several songs by Rogers and Hammerstein and excerpts from La Boheme.

## Noted Concert Soloists To Present Assembly

By Sharon Gabbert

Elizabeth Winslow, soprano, and Walter Carringer, tenor, two rising young American singers, will appear today in the third assembly program of the College's summer session. The assembly will begin at 9:50 a. m.

Miss Winslow, though a comparative newcomer to the concert world, is one of the most artistic and gifted of young American singers. Last season, she was personally chosen by Robert Shaw as soprano soloist of his famed Chorale, which made an extensive tour of the country, touching such cities as Boston, Chicago, Denver, Kansas City, and Portland.

Miss Winslow was singled out by Leonard Bernstein for the premiere of his TROUBLE IN TAHITI at Tanglewood a few seasons ago. She was also acknowledged winner of the Music Education League competition in 1954 and was New York State winner in the National Federation of Music Clubs Competition.

### Received Degree From Vassar

Miss Winslow is a native of Brooklyn, where she attended the Packer Collegiate Institute. She later attended Vassar College, graduating with a B. A. degree. While at Vassar, Miss Winslow was president of the Music Club there, and appeared often as soloist with the Glee Club, including a Town Hall appearance.

She also performed in many college shows, sang with an octet, and appeared on the Arthur Murray Show on TV. She later toured with the Chartock Gilbert and Sullivan Company.

### Carringer Has Impressive Record

Walter Carringer, one of America's rising young singers, has already at this early stage of his career a record of important American premier performances, appearances on nation-wide radio and television networks and in forty-six states and Canada. An oratorio singer and recitalist, Mr. Carringer was selected as tenor soloist for the premier American performances of Handel's first and last oratorios, the Passion According to St. John, and The Triumph of Time and Truth. He has appeared in Town Hall nine times, and twice in Carnegie Hall.

He also has the remarkable record of more than 100 performances of the Mozart Requiem.

Mr. Carringer, a native of Knoxville, Tennessee, moved in his early boyhood to Murphy, North Carolina, where he grew up.

It was during his two and a half years of service in the army during World War II that Mr. Carringer first became aware that he might be destined for the concert world. His military superiors recognized his vocal gifts and urged him to pursue singing as a career.

### Received Degree From Columbia

At New York's Columbia University, where he completed work for his B. S. degree in music, Mr. Carringer was the first student to appear in solo recital at Columbia's concert hall, McMillan Theatre.

Mr. Carringer was tenor soloist with the Shaw Chorale for three and a half years. In 1953, Mr. Carringer devoted his full time to solo concert appearances on his own. In 1955, he was one of ten young artists from throughout America who reached the final competition conducted bi-annually by the American Federation of Music Clubs.

## Movie Review

Susan Hayward and Gregory Peck star in "David and Bathsheba" to be shown July 11 at the Bearcats' Den. This is the story of David, the shepherd boy, who succeeds Saul as King of Israel, and falls in love with the beautiful Bathsheba. This is one of the most powerful love stories of history. The film is in technicolor.

## Miss Lois Simons Leaves July 10 For Trip Abroad

Another member of the faculty is flying the Atlantic. Miss Lois A. Simons, accompanied by her mother, will leave New York on July 10 on a tour sponsored by the Travel Division of the National Education Association. The tour will start with a two weeks' visit to England and Scotland; from there it will go through Holland, Belgium, Germany, Austria, Italy, Switzerland, and France.

During her stay in Great Britain, Miss Simons hopes to rent a car and drive to Llandudoch, Wales, where her grandparents lived.

### To Cross From Harwich

By late July the tour will have crossed the Channel from Harwich to the Hook of Holland. In Amsterdam the group will visit the Rijks Museum where a large number of the works of Rembrandt are housed. From Holland the tour will move into Belgium with visits to Brussels and Antwerp, before moving down the Rhine into Germany.

Leaving Belgium the tour will cross the German border to the city of Aachen before moving on into the Rhine valley. In this area the extensive damage of the war may yet be seen in such cities as Dusseldorf and Cologne. After leaving the Rhine at Mannheim, the group will travel to Heidelberg, the university city on the Neckar River.

### To See Central Plains

In early August, the central plains of Baden and Hesse are at the peak of their beauty. While in this area Miss Simons will have the privilege of visiting Rothenburg, a city whose people and customs have not changed in five hundred years.

The tour's last stop in Germany will be Munich, capital of Bavaria and the third largest city in Germany, with a population of eight hundred thousand. It was in Munich that Adolph Hitler first rose to power in his famous Beer Hall Putsch in 1924. Although a great portion of the city was de-

(Continued on Page Three)

## Credit Union Loans May Go to Teachers

The Northwest Missouri Teachers Credit Union is prepared to lend money to members of the teaching profession. The rate of interest is 1/2 of 1 per cent per month on the unpaid balance. It is believed that this low rate of interest can afford savings when compared with charges incurred under an installment buying contract. Further, Credit Union loans are insured.

Therefore, if funds are needed for appliances, furniture, automobiles, and the like, consideration may be given to borrowing from the Credit Union.

Further details may be obtained from Dr. Sterling Surrey, secretary-treasurer of the Credit Union, Room 101.

## Dean of Faculty Leaves to Assume New Position

Dr. William A. Brandenburg, dean of faculty at the College, will become President of the Nebraska State Teachers College at Wayne, Nebraska. Dr. Brandenburg will leave this week for a short vacation before assuming his duties at Wayne.

Dr. Brandenburg came to the College in September of 1950 to become dean of the faculty. Before accepting the position here, he was Dean of William Woods College at Fulton.

He went to William Woods as dean of the faculty in 1940 from a position as history instructor at Ohio State University. In 1941, he was named dean of the college, an executive position he held until the fall of 1950 except for a period of active military service in the United States Marine Corps from January, 1943, to September, 1946.

He is now a member of the USMC Reserve and the Marine Corps Reserve Officers Association, as well as the American Legion and Veterans of Foreign Wars.

Dean Brandenburg was awarded the Ph. D. degree by the University of Colorado in the field of history. Previously, he had taught in the public schools of Tulsa, Oklahoma, and had received his B.S. and M.S. at Kansas State Teachers College, Pittsburg, Kansas.

During his six years with the College, Dean Brandenburg has been active in campus and community affairs. He is governor of the 194th District Rotary.

## Monica Giesken To Visit Orient

Monica Giesken, who has been secretary to the Registrar for the past five years, is flying to the Orient on her vacation to visit her brother, John, a member of the United States Air Force.

Miss Giesken will leave Kansas City, July 21, via Pan American Airlines. She will spend four days in Los Angeles visiting friends and then will fly on to the Hawaiian Islands. While in Honolulu, Miss Giesken plans to visit Elizabeth Tokuda, a former student of the College. She will leave Honolulu on July 26 and arrive in Tokyo, Japan, on the 28th.

During the three weeks' visit with her brother, Miss Giesken plans to visit Mr. and Mrs. Bruce Montgomery, a former employee of the College, and their daughter, Mrs. Jean Michaels.

A side trip to the British held island of Hong Kong is planned as a climax for Miss Giesken's vacation. She will return to Kansas City on August 17.

## Teachers of Missouri Reject Social Security

A board of tellers appointed by Mr. Ward E. Barnes, Supervisor of the Social Security Referendum for the Public School Retirement System of Missouri, tabulated the referendum votes on May 31, 1956.

The number of votes for the social security coverage was 7,086. The number of votes against the social security coverage was 5,166. The Federal Social Security Law requires that a majority of the members of the retirement system eligible to vote in the referendum must vote for coverage in order for it to be effective.

## Special Dates!

June 27—Winslow-Carringer assembly.

June 28—Square dance at the tennis courts, 7:30 p.m.

July 4—Holiday.

July 6—Trip to Starlight, "Best Foot Forward"

July 11—Movie in the Den, "David and Bathsheba."

## Proficiency Test To Be Given July 11

The English Proficiency Examination will be given in the auditorium on Wednesday, July 11, 1956, at 9:50 a. m. All students whose total credit has reached 45 hours are required to take the examination, with the following exceptions:

Those whose credit reached 50 hours before Sept., 1951. Those who transferred from another college with 57 or more academic hours.

### Attention!

Courses numbered from 100-199 are open to students who have 57 hours of academic credit and a grade point average of .80, and to students with fewer hours according to the following:

45 hours 6 hours above 100

Students who do not observe this regulation and who are not qualified to carry courses numbered above 100 will not be granted credit for the completion of senior college courses during this summer session.

## Miss Wincie Carruth Visits Dr. and Mrs. J. W. Jones

Dr. Wincie Ann Carruth, Fayetteville, Ark., spent the weekend in Maryville visiting at the home of Dr. and Mrs. J. W. Jones. Dr. Carruth, former head of the physical education department at the State College, is now chairman of the physical education department at the University of Arkansas, Fayetteville.

## Our American Creed

"I believe in the United States of America as a Government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign Nation of many sovereign States; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies."

## Career Highlights Prove . . .

An interesting duo will present the assembly program today; they are Elizabeth Winslow and Walter Carringer.

A few highlights from their careers tend to prove that their program will be interesting.

Miss Winslow is a graduate of Vassar and is described as a "fragile, blonde, diminutive beauty." She appeared with an octet called the "Night Owls" on the Arthur Murray TV show, and she also toured with the Gilbert and Sullivan Company. There is a chance of light entertainment because she has been known to sing songs such as "Polly Wolly Doodle All the Day."

Mr. Carringer made his first public appearance before the age of eight when his grandfather placed him upon the church platform. Since then he has appeared in forty-six states and Canada. He has appeared in Carnegie Hall twice and has sung as tenor soloist of the Shaw Chorale for three and a half years.

These two should make some good listening; so be sure to attend.

## Catch Our Brass Ring and Live

Our merry-go-round of safety slogans and warnings just keeps going around. The brass ring one should catch and hold on to for life is "Slow Down and Live." This applies not only to actual speed of the car, but also to the mental hurry and scurry which goes on in one's mind while driving.

Statistics show that holiday driving is slightly safer than ordinary weekend driving. The reason is the added thoughtfulness on the driver's part, which is due to his realization of the danger involved.

This country has a very important holiday coming soon, and many will be out on the road. "Slow Down and Live" in order that you may enjoy our independence.

After the holiday don't forget to apply the same thoughtful attention to your daily driving.

## The Stroller . . .

Last Thursday noon when the Stroller entered the main dining room of the Union, he found himself in the midst of what seemed to be a convention of white hats. Closer examination of the little green banners on the tables told him it was the Classroom Teachers Luncheon that he had stumbled onto. No doubt about it; under those white hats was a pleasing-looking group of teachers.

Here's hoping the rest of you didn't start the summer season in the way the Stroller did. He welcomed the first day of summer by sleeping through his seven-thirty class. Judging by the thermometer readings, one would think summer started long before June 21.

Did you ever know anyone with a hypnotic hotfoot? The Stroller chanced upon an experiment in hypnosis one evening last week and, lo and behold, the subject of the experiment developed a hotfoot from the suggestion that his foot was burning.

A parking congestion at the east entrance of the Ad building is causing headaches again. One of the local cabbies complained about it to the Stroller and asked if he wouldn't put a notice in this paper. So here it is! Please do not park in the circle at the east end of the Ad building.

The water shortage of late seems to have affected some of the boys in the Quad. The Stroller observed several of them attempting to witch water inside of the Quad. It was almost uncanny how simple it was for these novice water witchers to locate exposed water pipes.

## They're Talking About . . .

They're Talking About . . . midterm exams—so soon . . . the campus guests on Classroom Teachers Day . . . the swimming period at the city swimming pool cut short by a thunderstorm . . . the call of the kookaburra bird . . . aren't you proud to teach . . . playing golf at 5:00 a.m. . . discussing exams before handing them in . . . Haaa-ann-KKK and his black shoe polish.

The end of the drought—maybe . . . Going to Starlight . . . power failure and tardiness for early classes . . . People who disturb one's sleep with fire crackers . . . The sun tans which some people possess . . . The square dance tomorrow night . . . A day off on the Fourth of July . . .

## News About

### College Faculty

A new instructor has joined the English Department faculty for the summer. Miss Marie Neville, Ph. D., came to the college from a teaching position at Loyola University, Chicago, Illinois, where she has taught for the past six years.

Dr. Neville's degrees are as follows: A.B., received from Webster College; M.A. from St. Louis University; and Ph. D. from Ohio State University.

Mr. John Taylor, who was an instructor in the Social Science Department in 1953 and '54, will return to the College this fall to resume his teaching duties. For the past two years Mr. Taylor has held graduate assistantships at the University of Illinois, where he is at present completing his dissertation for his Ph. D. degree in Sociology.

F. B. Houghton, of the agriculture department, was in Columbia Thursday and Friday, June 21 and 22, where he attended a meeting of the staff members of the agriculture departments of the state colleges and the Missouri College of Agriculture.

Mr. James Johnson, librarian, is on the Iowa State University campus this summer, working toward a master's degree in American civilization. Mrs. Johnson is with him and is also doing some class work at the university.

Miss Mabel Cook of the Home Economics department left for Washington, D. C., on June 25th where she will attend the annual convention of the American Home Economics Association. The convention will last through June 29.

Miss Elinor O'Connor, who has been Assistant Director of Residence Hall for the past year, will leave Friday, June 29, for Baltimore, Maryland, where she will assume the position of Director of Residence at the Johns Hopkins Hospital there.

Mr. William A. Lafferty of the Mathematics department recently received his Ed. D. degree from Teachers' College, Columbia University. Dr. Lafferty's special interest was the teaching of mathematics at the college level.

Mr. John Perkins, an instructor in the Social Science department for the past year, is now at the University of Texas where he is working toward a Ph. D. in Economics.

### Staley Calls For Closer Cooperation

Oren Lee Staley, president of the National Farmers' Organization (NFO) has called "for closer cooperation between labor and agriculture, in fields of mutual interest to both groups."

Staley addressed the national constitutional convention of the United Packinghouse Workers of America in Cincinnati, O., last week with delegates attending from the 48 states and Puerto Rico.

"Neither agriculture nor labor can achieve their goals without each other's cooperative support," Staley said.

"We must build a strong farm organization," Staley said. "But this creeping economic paralysis, due to depressed farm prices is a matter of concern to every person in the country."

"Our goal is to do as much for the American farmers as labor unions have done for the working people of America," Staley commented. "We of the NFO insist that the welfare of the American people cannot and will not be divided."

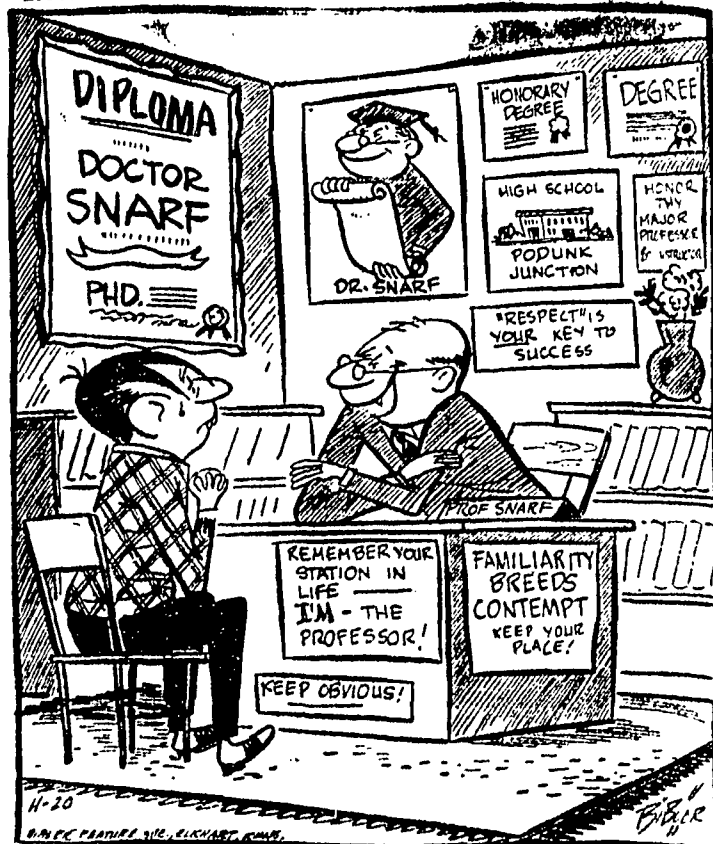

"If America is to remain strong, we must have a standard of living for both labor and agriculture that befits America," Staley said.

Staley told the convention that a public relations job is needed to counteract claims that "farmers are looting the treasury" and that the "high cost of labor is the root of the farmer's troubles."

The NFO stands for full 100 percent of parity which is cost of production, plus a reasonable profit.

## LITTLE MAN ON CAMPUS

by Dick Bibler

"Try to forget for a moment I'm your professor and let's talk your problem over man to man."

## State College Alumni

A biographical sketch and photograph of Justyn Lair Graham are included in the 1955-56 edition of "Who's Who in American Education," just published.

Graham is elementary school principal at Savannah. He also has had educational experience at Atchison, Kan., and Independence. He is a member of the National Education association, State Teachers' Association of Missouri, National Elementary Principals' association, Association of Elementary Teachers of Missouri, Delta Kappa honorary educational society for men, and Alpha Phi Omega fraternity.

Graham, whose master's degree in education is from the University of Colorado, is presently doing advanced study at the University of Minnesota. He is a son of Mrs. Avis Graham, Maryville, and a grandson of Mr. and Mrs. N. E. Lair, Ridge-way. — Bethany Republican-Clipper.

Mr. John Samuel Urban, who was graduated from Northwest Missouri State College in 1928, took his examination for the degree of Doctor of Philosophy at the University of Oklahoma on May 14.

Mr. Urban's major subject is physics, and his minor is mathematics. His completed publications are "An Ultra Stable Audio Oscillator" and "Analysis of Nuclear Emulsion Tracks by Scattering Measurements." The subject of his dissertation is "The Identification of Charged Particles

in Nuclear Emulsions."

Mr. Urban and his wife, the former Willard McClintock, also a former student on this campus, are moving soon to Canyon, Texas, where he will join the faculty of the West Texas State College.

Dr. Glenn S. Duncan, alumnus of the College, returned recently with his wife and daughter to visit friends on the campus. The Duncans were the house guests of Miss Mabel Clair Winburn while they were in Maryville.

Dr. Duncan, member of the industrial arts faculty, Eastern Illinois State College, Charleston, has accepted a position as head of the industrial arts department at Chico State College, Chico, California.

Mr. and Mrs. Edgar Quillan, residents of Seaford, Delaware, visited the campus with their daughters, Susan and Linda, on June 20th. Mr. Quillan was a member of the class of 1940 with his major in music.

Mrs. Quillan, who was the former Laura Margaret Davis of Maitland, was a business major and also a member of the class of 1940.

The Alva Letts of Pickering were pleasantly surprised Saturday by a visit from their son, Capt. Alva Lett, Jr., Wright Patterson Field, Dayton, O.

Captain Lett and Capt. Joseph A. Calhoun, both of Wright Patterson Field, continued on to Alabama.

### THE COLLEGE OATH

"We will never bring disgrace to this, our College, by any act of cowardice or dishonesty. We will fight for the ideals and sacred things of the College. We will revere and obey the College laws and do our best to incite a like respect and reverence in others. We will transmit this College to those who come after us, greater, better, and more beautiful than it was transmitted to us."

## Summer Menus Accent Food With a Flourish

"Lunch will be ready in just a minute," say Lee Pointer, Lee Ann Butler, Ruth Metcalf, and Berta Wolf, students in the Food Problems 71bc class. These students are preparing a cheese and tossed salad luncheon.

## Industrial Arts Department Goes Modern With New Device

By Virginia Buzzard

Operating on the theory that music soothes the savage beast or the restless college student, the Industrial Arts Department has installed a modern teaching aid, a combination public address system, radio, and record player. This system has four speakers located in various parts of the department. Each of these four speakers is controlled by switches in the main office so that just one speaker may be used, or all of the speakers may be used at the same time. This set has a microphone that may be used to make announcements or to call someone to the telephone. Mr. Valk, chairman of the department, states that this equipment is very useful.

Plans have been made to play semi-classical music during the shop periods.

"No rock and roll," says Mr. Valk, "but semi-classical music with a mixture of Guy Lombardo."

Special radio programs of interest to the Industrial Arts department will be broadcast also. Fortunately, the music or the radio program can be transmitted to all parts of the building or one classroom alone.

This amazing device, which cost an estimated forty dollars, was built as a class project under the guidance of Mr. Valk. Under the capable supervision of Mr. Kenneth Thompson, the electricity class, led by Edwin Herde, completed the project. Most of the electrical parts came from Chicago, and the cabinet that houses it was donated by the Physics Department. The class as a whole has done a wonderful job.

Some experiments were made last spring with music in the early morning hours. It was found that students would come early and would get off to a better start when serenaded by soft music. Improvements in mechanical drawing were noted when music was added.

The Industrial Arts department has certainly gone modern.

## Home Economics Students Show Skills in Cooking and Sewing

By Edwyna Condon

Sewing, cooking, home decorating, and child development are among the skills home economic students are learning this summer on the third floor of the Administration building. Instructors Mrs. Frank Bouska, Miss Mabel Cook, and Mrs. Scott Sawyers, Jr., are helping students find, through the offered courses, more useful and happier experiences both in the teaching and in the home.

Working on the theory of the "how and whys" of food preparation with stress on skills is the objective of the Food Problems course, 71bc. According to Mrs. Bouska, this course is a combination of two regular, semester length courses. The class will work primarily with soups, salads, sugar cookery, eggs, and desserts. Selecting and preparing well-balanced meals and developing a knowledge of serving meals to the family are to be stressed in this summer session.

Elementary Nutrition, a foods course designed for the elementary school teacher, presents a background of the fundamentals of nutrition which are a part of elementary school subjects. This course deals with location of food materials for pupil use.

In Sewing Students Tailor Suits, Mrs. Sawyers' Advanced Cloth class is tailoring a wool suit for its project. Students select a pattern and material for the suit but before actual work begins they construct a muslin replica of the suit. All alterations are made on this replica which is later used as a pattern for the wool.

Learning to identify natural and "man-made" fibers is an objective of the course in Textiles. This laboratory class is taught by Mrs. Sawyers.

Home Decoration, taken by students as a service course, provides each student with an opportunity to redecorate a room or group of rooms or plan and decorate a plan for a new room.

In Pre-School Children, taught by Miss Cook, the students in Child Development are mostly by elementary school teachers. The growth and development of pre-school children is studied from the point of view of the home and family rather than that of the educator. The purpose of the course. Projects for the students consist of observation followed by presentation of the growth of children.

With an accentuation on techniques of teaching and development of various home economics students in the Methods in Elementary School Home Economics class will write a unit plan for their project.

Feature Summer Menus demonstration in connection

## Piano Class Is Added

A new feature which has been added to the Music Department this summer is the Piano Class under the instruction of Miss Ruth Miller. The purpose of this class is to benefit the beginning piano students and to provide one hour of applied music credit. Two such classes will be organized this fall.

## Grade Schools Emphasize Unity In All Activities

Horace Mann Laboratory School pupils attending during the summer session have begun work on various unifying experiences at the different grade levels.

First grade pupils are studying the farm and what the farmer means to us. The class has visited a farm which does not have modern facilities. The culminating activity at the close of the study will be a visit to a modern farm.

Second grade students are working on the continuation of their work during the year, "How Our Community Does Its Work."

Pupils in the third grade class are studying foods that are produced in Maryville and sent out, and foods brought into Maryville from other places. The class visited the milk plant in Maryville and plans to visit a bakery in St. Joseph soon.

"Life in Japan" is the center of interest in the fourth grade. Many Japanese articles of interest are on display in the room.

Fifth grade students have as their unifying experience the study of transportation by railroads. As a culminating activity, the class plans a train trip on a Zephyr from Craig to St. Joseph.

Sixth grade pupils are working on a study of "Our Missouri." This class has listed the following reasons why they are proud of their state: natural regions with points of interest, natural re-

with the Adult Homemaking Education course will be held in the home economics department the evening of July 10. "Food With a Flourish" will feature summer menus and garnishes by Mrs. Alice Mansfield, Home Economics instructor from Gravity, Iowa. All students are invited to attend this demonstration which was planned by the Home Economics department and an advisory council composed of Mrs. Sue Cobb, Mrs. Mary Grun, Mrs. Patsy Wilbur, Mrs. Frank Davis, and Mrs. Jack Madsen.

## Miss Lois Simons Leaves July 10 For Trip Abroad

(Continued from Page One) destroyed by air attack during the war, there is still a great deal to see. Proceeding by way of the German and Austrian Alps to Salzburg, the tour will visit the music festival held in honor of Mozart.

### To See Venice

Crossing the Brenner Pass from Austria into Italy the group will next enter the city of Venice for a short stay before moving down the boot of Italy to Florence, Assisi, and Rome. After a week's stay in Rome the group will travel up the Italian Riviera to Rapallo and Genoa before moving inland to Milan.

The tour next will cross into Switzerland to visit such cities as Lucerne, and Berne. After entering France, the tour will move on to Dijon and Fontainebleau before coming to Paris. In Paris the tour will spend a week before crossing by channel steamer to Dover for the return journey home.

## Graduate Student Enrollment Shows 50 Per Cent Increase

(Continued from Page One)

Clyde Saville, Maywood, Ill.; Josiah Stansberry, Oregon; Warren Stanton, New Market, Ia.; Elizabeth Straley, McCook, Nebr.; Maurine Thomas, Barnard; Ron Van Ryswyk, Pleasantville, Ia.; Mary Wagner, Maryville; Martha Woollums, Denver; and Denzil McIntosh, Mercer.

Of these fifty-three graduate students, Miss Darline Rodecker, Mrs. Winifred Paddleford, and Mrs. Alice Howland have been in continuous attendance since the graduate program was initiated in the summer of 1955.

## Residence Hall Plans Activities

The students at Residence Hall are planning a dorm party to be held Tuesday, July 3rd, at 9 p.m.

There will be a talent contest between first and second floor girls. Three judges will choose the winners, who will have the honor of giving a party for the senior girls.

Committees for the party have been chosen from both floors. Members of the first floor committees are as follows: program, Jo Ann Noble and Jean Blacklock, and refreshments, Marge Morse, Delores Keeley, and Emma Yurkovich.

The second floor committees are as follows: program, Barbara Sharp and Barbara Crowe; refreshments, Mary Beth Peck; and clean-up, Ferial Foster and Sandra Hochstein.

On June 18th the students at Residence Hall gave a surprise party in honor of Miss Margaret O'Connor, the assistant director, who is leaving the College to accept a new position.

## To Tour 102

A general tour of the proposed 102 River Watershed will be made today and Thursday under the direction of Cecil Saddoris, Des Moines, Ia., Ralph McGill, area soil conservationist at Bethany.

An open meeting will be held at 10 a. m. today in the circuit courtroom of the courthouse, prior to the tour. Members of the citizens watershed committee, Extension office staff, county court, ASC and SCS will meet with Saddoris and his party.

A general discussion will be held on the watershed program, both on the 102 River and other sections of the county.

The watershed surveyors will use information gathered this morning, develop and outline and return for another tour July 12 and 13.

The watershed application for Nodaway county on the 102 River is the first in the state to be approved in Washington. Drouth stricken Harrison county also was approved subsequently.

# Dr. Riddle to Call Square Dance Thursday

## Dance to Be Held Tomorrow Evening On Tennis Courts

Tomorrow night, June 28, the second square dance of the summer will be held. This dance will be held on the tennis courts from 7:30 until 9:30 p.m. If the weather is bad, the dance will be held in room 114 of the Administration building.

Dr. Katherine Riddle will be in charge of the calling of the dances. Dr. Riddle has recently joined the Physical Education staff of the College.

Pat Adams, Donna Thompson, and Beverly Murphy will be the assistants to Dr. Riddle for the evening in calling. There will be some dances different from those called at the first square dance, and some will be the same.

As square dancing has become increasingly popular in the United States, Dr. Riddle has become increasingly interested in it.

While she was on the faculty at the University of Minnesota she became acquainted with Lloyd Shaw, famous author of books on cowboy dances, couple dances, and square dances, who conducted a workshop there.

Dr. Riddle plans to present some Shaw dances to the group tomorrow night in somewhat the same way that Mr. Shaw often presents them at conventions and other meetings of large groups of dancers.

Dr. Riddle, whose home is Pocatello, Idaho, received her B. S. and M. S. degrees from the University of Wisconsin and her Ed. D. degree from the University of Oregon.

She taught at Beloit, Wisconsin, while she was attending the University of Wisconsin. She was an assistant teacher at the University of Oregon during her last year of schooling at the university, and she taught at Oregon State College. She has also taught at the University of Minnesota, Louisiana Tech, Kirksville, and Fort Hays, Kansas.

The social committee of the College has planned this second square dance for the summer. It is hoped many students will attend.

Cold pop will be served at intermission.

## Random Shots . . .

The swimming pool surely feels good on these hot days that we have having lately. Don't forget, the pool is open for your convenience every Tuesday and Thursday between the hours of 4:00 and 5:30 p.m.

Charlie Adair started out in the right way in his first tennis match at St. Joseph by defeating the runner-up in last year's summer tournament. Charlie hopes to play doubles with Paul Clark, who was his doubles partner here in College, before going to Morticians School in Chicago last fall. Paul was number two man for the Bearcats in 1955. Both are southpaws.

Remember the All-Star baseball game which is to be played in Cincinnati, July 10. The TV room in the Union will be open for the convenience of seeing this game.

Some of the men students are complaining because more girls won't show up for the co-recreational swimming.

Tennis court chatter is up quite a bit with many students playing nearly every hour of the day. Some good matches can be watched by anyone interested, even by "old" man Bishop.

Don't forget the second square dance of the summer is tomorrow night on the tennis courts. The last one was enjoyed by all who attended, but there was a scarcity of men.

The Maryville Merchants are winning nearly every game this season. Marvin Black, College senior, has been the main one as his pitching has been exceptionally good. Black is also trying out for the Cardinals this summer.

## We'd Like to Do This, Too; Wouldn't You?

A sure way to get cool, refreshed, and maybe a little tired is by using the College pool on Tuesday and Thursday afternoons between the hours of 4 and 5:30. Above Harry Bowes shows one dampened enthusiast the fundamentals of floating. Some of the other swimmers are Darwin Propes, Joe Norton, Barbara Crowe, Shirley Dieterich, Beverlee Mason, Mary Lou Evans, Gay Ryan, Mrs. Lloyd Mathers, and Mary Lee Landon. The others? We aren't sure.

## Cardinals Become Strengthened This Season by Lane's Trading

This year the St. Louis Cardinals are fighting for top berth in the National Baseball League. The Cards are doing remarkably well this year compared to last season at this time. One year ago this week the Card were 18½ games out of first place, while at present they are only 3½ games out of first place.

Many speculations have been made since the trading done by the Cardinal general manager, Frank Lane, and manager, Fred Hutchinson.

Recently in the trading world the great "Red" Schoendienst was traded to the New York Giants. "Red" had been one of the Cardinals' greats with the record for the most consecutive fielding plays without an error in the National League. Lane also traded in the same deal Jackie Brandt, outfielder; Dick Littlefield, pitcher; and catcher Bill Sarni. In return, the Cards received Al Dar shortstop and Giant captain; Ray Katt, catcher; Don Lidda, pitcher; and Whitey Lockman, first baseman and outfielder. Many fans were sore at Lane for the trade, but Lane believes the combination he now has will win the pennant.

Fans could see pennant fever in Lane's eyes when he was trading for some veterans and thinking only of this year. Ellis Kinder went to the Cardinals as a relief pitcher and has been effective in nearly every game he has pitched. Recently Jim Konstanty donned a Cardinal uniform after coming from the New York Yankees. Konstanty was the most valuable player in the National League in 1950 when he led the Philadelphia Phillies to the world series. The Phillies were defeated, however, in the series that year.

When the 1956 season began and the Cardinals immediately climbed up into the top echelon of the National League and dominated the lists of the league's leading batters and run scorers and run makers, the newsmen decided that predicting pennant races was a foolish business, as they had picked the Cards for the second division again this year. At the end of the 1955 season, fans everywhere were calling the Cardinals "the best seventh-place team in baseball history."

Last season the Dodgers and Chicago Cubs soared high in the spring. The Cubs dropped from second to sixth, but Brooklyn continued to play steady, so the pennant winner surely can't be decided yet and the Cards may have a terrible slump as the Cubs had.

The Cards this season have no real stopper, that is, no star pitcher who can step in, win his game and break up any looming losing streak. In fact, they haven't had much of a pitching staff at all. Their pride and joy is Vinegar Bend Mizell, left-hander with a blazing fast ball.

It is certain that Mizell's personality and nickname have combined to place an inordinate responsibility on him. St. Louis fans expect him to behave like Dizzy Dean, but Mizell almost certainly won't win as many games for the Cards as Diz did when he won 18, 20, 30, 28, and 24 games for the Cards in one five-year stretch. Mizell is potentially a superb pitcher and is still learning the trade. He is not yet a bulwark to lean on, not yet a stopper, not yet a Dean.

The relatively unpublicized Tom Poholsky has actually been a better pitcher than Mizell this spring with two shutouts to his credit. Other members of the Cardinal pitching staff are Lindy McDaniel, a bonus player, Larry Jackson, a tall right-hander who was a rookie last year, and Willard Smitze.

The key man in the St. Louis batting attack has been, surprisingly, not the nonpareil Stan Musial but a 25-year-old third baseman named Kenny Boyer who was a bright enough rookie last year, but who hit only .264. This spring Boyer is hitting around .350, has led the league in runs batted in, and has been with the leaders in home runs.

Another bright spot for the

Cards is the "Ripper," Rip Repulski, who was leading the league in hitting. Last year Rip started out well but slowed up tremendously and ended with a batting average of .270.

St. Louis fans were stunned in the early part of May when Lane began his wild trading. He let go of Cardinals Harvey Haddix, a Cardinal left-hander who had won 20, 18 and 12 games for St. Louis; scrappy Solly Hemus; Alex Grammas, and Joe Frazier. Then he traded away outfielder Bill Virdon, who last year was picked over Boyer as the National League's Rookie of the year.

Other veterans whom Lane received from other clubs were Herman Wehmeier, Max Surkont, and Murray Dickson, all pitchers. He also received the big Hank Sauer, who plays in the outfield.

With an outfield of the best in

the majors in Repulski, Musial, and Wally Moon, who was switched to the outfield after the Cards' acquisition of Whitey Lockman, the Cards will be ready for the long ball hitters. With their infield of Lockman at first; Don Blasingame, second; Boyer at third; and Dark at short, the pitchers can be assured of backing. Katt is the backstop for the Cardinals now since the trade of Sarni.

## Tennis Again Taught To Summer Students

Tennis, PE 52, is again being taught this summer with Coach F. Land Milner as the instructor. Twenty-nine students are taking advantage of this summer sport. Fundamentals are being taught by Coach Milner now, with matches taking place when the students master these fundamentals.

Members of the PE 52 class are Mary Rose, Richard Quinn, C. Ryan, Lowell Mollenkopf, B. Thomas, Eileen Judge, Debra Neman, Mary Scanlan, Kathi Shreer, Rhoda Kohlman, He Mattson, Joseph Schieber, Ken Tshako.

Era Dunn, Bill Schultz, En Murphy, Chester Jenkins, Glen Jameson, Norbert Meyer, Rita Jackson, Joann Owens, Albert Groves, Martha Edwards, Glen Wehrkamp, Wilma Shaw, Kathi Kiever, Betty Schrad, Georgetta Stalder, and R. Protzman.

## WE BOW

We bow. The Maryville Merchants won 21 games and lost 6 last season instead as previously stated as having won only one game.
